

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# Number and Time: End-of-Topic Test

## Instructions

**Time allowed:** 45 minutes

**Instructions:**

- Answer ALL questions.
- Write your answers clearly in the spaces provided.
- Show your working out where appropriate, as you may get credit for your method.

## Section 1: Place Value and Number

1. Write the value of the underlined digit in each number.

a) 4,732

b) 8,091

c) 5,329

2. Complete the table by writing the missing numbers in either standard form or expanded form.

| Standard Form | Expanded Form      |
|---------------|--------------------|
| 3,452         |                    |
|               | $7,000 + 50 + 8$   |
| 9,201         |                    |
|               | $4,000 + 300 + 90$ |

**3.** Complete the table by writing the numbers in digits or in words.

| Number in Digits | Number in Words                       |
|------------------|---------------------------------------|
| 1,450            |                                       |
|                  | Three thousand, two hundred and eight |

|       |                                          |
|-------|------------------------------------------|
| 6,092 |                                          |
|       | Eight thousand, five hundred             |
| 2,311 |                                          |
|       | Nine thousand, one hundred and four      |
| 4,005 |                                          |
|       | Seven thousand, eight hundred and ninety |
| 5,555 |                                          |

|  |              |
|--|--------------|
|  | Ten thousand |
|--|--------------|

4. Complete the table by finding 1000 more and 1000 less than the given numbers.

| 1000 Less | Number | 1000 More |
|-----------|--------|-----------|
|           | 4,520  |           |
| 7,199     |        |           |
|           |        | 10,000    |

5. Order the following numbers from smallest to largest:

3,405   3,045   3,540   3,450   4,350

|  |
|--|
|  |
|--|

6. Insert the correct symbol (<, >, or =) to compare the numbers.

a) 6,712 \_\_\_\_ 6,721

b) 8,005 \_\_\_\_ 8,005

c) 4,999 \_\_\_\_ 5,001

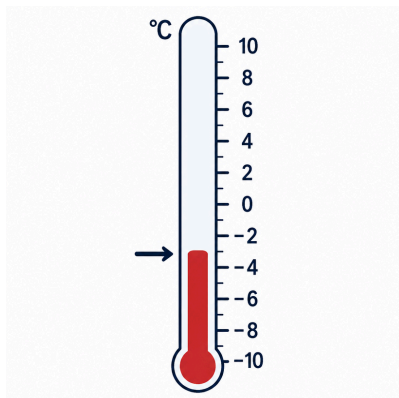

## Section 2: Sequences and Negative Numbers

Fill in the missing numbers for the following sequences. Pay attention to the rule for each one.

**7.** Count in 25s: 25, 50, \_\_\_\_\_, 100, \_\_\_\_\_

**8.** Count in 6s: 18, 24, \_\_\_\_\_, 36, \_\_\_\_\_

**9.** Count in 9s: 63, 72, \_\_\_\_\_, 90, \_\_\_\_\_

**10.** Look at the thermometer. What temperature does it show?

**11.** The temperature is currently 4°C. It drops by 9 degrees overnight. What is the new temperature?

**12.** A submarine is diving. It is currently at -15 metres (15 metres below sea level). It dives a further 12 metres down. What is its new depth?

## Section 3: Time and Timetables

**13.** Convert the following units of time.

a) 3 weeks = \_\_\_\_\_ days

b) 2 years = \_\_\_\_\_ months

c) 120 seconds = \_\_\_\_ minutes

d) 2 hours = \_\_\_\_ minutes

**14.** The clock shows the time in the afternoon.

**a)** Write this time using the 12-hour clock format (include am or pm).

**b)** Write this time using the 24-hour clock format.

**15.** Here is a train timetable from London to Manchester.

| Station               | Train A | Train B |
|-----------------------|---------|---------|
| London Euston         | 09:15   | 10:30   |
| Milton Keynes         | 09:50   | 11:05   |
| Manchester Piccadilly | 11:45   | 13:00   |

**a)** How long does Train A take to travel from London Euston to Milton Keynes?

**b)** I arrive at London Euston at 10:10. How long do I have to wait for the next train to Manchester?

**16.** Read the digital times below and write them in words, using **past** or **to**.

| Digital Time | Time in Words | Digital Time | Time in Words |
|--------------|---------------|--------------|---------------|
| 3:10 a.m.    |               | 8:35 p.m.    |               |
| 7:45 a.m.    |               | 4:15 p.m.    |               |
| 2:20 p.m.    |               | 2:45 a.m.    |               |
| 9:55 p.m.    |               | 7:10 a.m.    |               |

|               |  |               |  |
|---------------|--|---------------|--|
| 11:15<br>a.m. |  | 11:55<br>p.m. |  |
| 5:40 p.m.     |  | 6:20 a.m.     |  |
| 1:30 p.m.     |  | 9:40 p.m.     |  |
| 6:05 a.m.     |  | 3:30 p.m.     |  |

|               |  |               |  |
|---------------|--|---------------|--|
| 10:50<br>a.m. |  | 1:05 p.m.     |  |
| 12:25<br>p.m. |  | 10:25<br>a.m. |  |

**17.** Read the times in words below. For each one, write the time in digital format and draw the clock face with the correct hands in the analogue space.

| <b>Time in Words</b>               | <b>Digital</b> | <b>Analogue</b> | <b>Time in Words</b>            | <b>Digital</b> | <b>Analogue</b> |
|------------------------------------|----------------|-----------------|---------------------------------|----------------|-----------------|
| Quarter past four in the afternoon |                |                 | Quarter past two in the morning |                |                 |

|                                   |  |  |                                 |  |  |
|-----------------------------------|--|--|---------------------------------|--|--|
| Half past seven in the morning    |  |  | Half past five in the afternoon |  |  |
| Ten to nine at night              |  |  | Ten to four in the afternoon    |  |  |
| Twenty past eleven in the morning |  |  | Twenty past nine at night       |  |  |

|                                     |  |  |                                       |  |  |
|-------------------------------------|--|--|---------------------------------------|--|--|
| Five to one in the afternoon        |  |  | Five to eleven in the morning         |  |  |
| Quarter to three in the afternoon   |  |  | Quarter to seven in the evening       |  |  |
| Twenty-five past six in the evening |  |  | Twenty-five past eight in the morning |  |  |

|                                      |  |  |                                        |  |  |
|--------------------------------------|--|--|----------------------------------------|--|--|
| Ten past<br>twelve at<br>night       |  |  | Ten past one<br>in the<br>afternoon    |  |  |
| Five past<br>eight in the<br>morning |  |  | Five past<br>three in the<br>afternoon |  |  |
| Twenty to<br>ten at night            |  |  | Twenty to<br>twelve in the<br>morning  |  |  |

Section 4: Critical Thinking & Problem Solving

**18.** Maya says: *"If I start at -5 and count up in multiples of 25, I will eventually land exactly on the number 100."*

Is Maya correct? Explain your reasoning carefully and show the numbers she would count.

**19.** A school trip leaves at 08:45. The coach journey takes 1 hour and 25 minutes. The children then spend 2 hours and 30 minutes at a museum before taking a 45-minute lunch break.

What time do they finish their lunch? Show your working out clearly.

This image shows a full page of white paper designed for handwriting practice. It features 18 evenly spaced, horizontal dashed lines that run across the entire width of the page. The lines are thin and light gray, providing a guide for letter height and placement without being distracting. There is no text or other markings on the page.

## Answer Key

### Section 1: Place Value and Number

- a) 700 (or seven hundred)
- b) 8,000 (or eight thousand)
- c) 9 (or nine ones)

Row 1:  $3,000 + 400 + 50 + 2$

Row 2: 7,058

Row 3:  $9,000 + 200 + 1$

Row 4: 4,390

Row 1: One thousand, four hundred and fifty

Row 2: 3,208

Row 3: Six thousand and ninety-two

Row 4: 8,500

Row 5: Two thousand, three hundred and eleven

Row 6: 9,104

Row 7: Four thousand and five

Row 8: 7,890

Row 9: Five thousand, five hundred and fifty-five

Row 10: 10,000

Row 1:  $3,520 / 4,520 / 5,520$

Row 2:  $7,199 / 8,199 / 9,199$

Row 3:  $8,000 / 9,000 / 10,000$

#### **Answer:**

3,045, 3,405, 3,450, 3,540, 4,350

a) < b) = c) <

### Section 2: Sequences and Negative Numbers

1. 75, 125

2. 30, 42

3. 81, 99

#### **Answer:**

-3°C

#### **Answer:**

-5°C

**Answer:**

-27 metres

## Section 3: Time and Timetables

a) 21 b) 24 c) 2 d) 120

**Answer:**

a) 3:45 pm

b) 15:45

**Answer:**

35 minutes

**Answer:**

20 minutes (waiting for the 10:30 train)

1. ten past three in the morning | 11. twenty-five to nine at night
2. quarter to eight in the morning | 12. quarter past four in the afternoon
3. twenty past two in the afternoon | 13. quarter to three in the morning
4. five to ten at night | 14. ten past seven in the morning
5. quarter past eleven in the morning | 15. five to twelve at night
6. twenty to six in the evening | 16. twenty past six in the morning
7. half past one in the afternoon | 17. twenty to ten at night
8. five past six in the morning | 18. half past three in the afternoon
9. ten to eleven in the morning | 19. five past one in the afternoon
10. twenty-five past twelve in the afternoon | 20. twenty-five past ten in the morning

1. 4:15 p.m. | 11. 2:15 a.m.
2. 7:30 a.m. | 12. 5:30 p.m.
3. 8:50 p.m. | 13. 3:50 p.m.
4. 11:20 a.m. | 14. 9:20 p.m.
5. 12:55 p.m. | 15. 10:55 a.m.
6. 2:45 p.m. | 16. 6:45 p.m.
7. 6:25 p.m. | 17. 8:25 a.m.
8. 12:10 a.m. | 18. 1:10 p.m.
9. 8:05 a.m. | 19. 3:05 p.m.
10. 9:40 p.m. | 20. 11:40 a.m.

## Section 4: Critical Thinking & Problem Solving

**Answer:**

Maya is incorrect. If she starts at -5 and adds 25 each time, the sequence is: -5, 20, 45, 70, 95, 120. She misses 100. To land on 100 when counting in 25s, she would need to start on 0 (or a multiple of 25).

**Answer:**

Journey:  $08:45 + 1 \text{ hr } 25 \text{ mins} = 10:10$

Museum:  $10:10 + 2 \text{ hrs } 30 \text{ mins} = 12:40$

Lunch:  $12:40 + 45 \text{ mins} = 13:25$  (or 1:25 pm)

**Answer:**

Thousands digit: Half of 8 is 4.

Tens digit: The largest single digit is 9.

Ones digit:  $9 - 3 = 6$ .

Digits so far: 4, ?, 9, 6. The sum of these is  $4 + 9 + 6 = 19$ .

Hundreds digit: The total sum is 20, so the missing digit must be  $20 - 19 = 1$ .

Sam's number is 4,196.
